Monday

MONTH: November WEEK: 1 DAY: Monday

Character Trait: Be Grateful | **Weekly Word:** Firefighter — bombero (bohm-beh-roh) | Police — policía (poh-lee-see-ah)

A note for substitutes — Toddler (Ones) age-appropriate adaptations

This classroom's own November grid ("Class: Toddler/Ones") carries no letter-of-the-month row at all — that field structurally does not exist in the Ones template the way it does for Twos/Threes, and the grid's Math Circle row only ever calls for "count to 10" and "review shapes/colors," never tracing. Toddlers this age (roughly 12-24 months) are pre-fine-motor and cannot yet grip a pencil purposefully, so three required content types were adapted rather than forced down from the older classrooms: (1) NO letter-tracing page — the equivalent required content is this month's real, building-wide Monthly Sign Language Focus (ball, book, wash hands, eat), built from the classroom's own real Hive Take-Home ASL cards, since Bear Phonics Academy itself substitutes functional signs for alphabet letters at this age; (2) Numbers 1-10 use a big-number "Count with Me" design (point to the number, count a row of dots, say the word) instead of a dashed stroke-order tracing outline; (3) the required daily shape-practice cycle's "Trace" day is a "Pat the Shape" page (one big shape sized for a whole flat hand) instead of a fine-motor dashed outline. Count/Hunt/Big-Little/Hop keep the same structure as older classrooms since those already match real toddler-level skills named directly in this classroom's own grid ("Play Shape Hunt," "Color Hop").
