About the Numbers 1-10 Pages (Workbook Pages 20-29)

This month's weekly grid only calls out Numbers 0, 1, and 2 day-by-day (see Week 2 Wednesday and Week 3 Thursday above). The required Numbers 1-10 real-worksheet set (Workbook Pages 20-29 — real Creative Math Lab tracing pages for 1 and 3-10, PIL fallback for 2) is a standing month-general requirement of this curriculum supplement rather than a grid-specific day. Hand these out at whatever pace fits your classroom's math-circle rotation this month, or send a few home each week.
